

COLLECTION PAGES CHECKLIST

Here's a list of things to double check around your theme's collection pages. Re-read Lesson 5: Designing Collection Pages for clarification on any of these items.

- ☐ Appropriate use of grid/list/both views
- ☐ Appropriate number of results per page (< 20 unless special circumstances)
- ☐ Product on collection pages show enough information for customers to make an informed decision
- ☐ Pagination implemented and marked up with WAI-ARIA attributes
- ☐ Infinite scroll not used
- ☐ Filter functionality appropriate to product range
